EASTER ARRANGEMENTS

Down To Earth Garden Shop is back at the EKPL for an amazing Easter Arrangements class. Sponsored by the Friends, this is a sought after program, so be sure to sign up quickly!

Payment is due by April 12th to secure a spot.

GARDENING FOR WILDLIFE

A volunteer from the UNH Cooperative Extension's program, Speaking for Wildlife, will be joining us on Tuesday, April 9, to show us how to cater our gardens towards wildlife!

This program will provide insights on ways to attract pollinators, like butterflies, as well as songbirds, mammals, and even mysterious amphibians such as red-backed salamanders to your backyard. We will discuss choosing plants, gardening techniques, wildlife and habitats, use of native plants, and issues such as invasive plants.

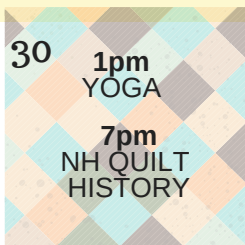

MALARIA FREE WORLD

The East Kingston Public Library is proud to welcome Kritika Singh and her team to present on the mission of their organization, Malaria Free World. Malaria isn't seasonal. Currently, 300 million people are either infected or at risk of infection. A child dies every one minute from malaria related infection. Malaria Free World is an active advocate for malaria research. Through hosting educational events and fundraisers, they aim to raise awareness for the malaria epidemic as well as foster scientific innovation for aspiring scientists.

Malaria Free World will be presented at both the East Kingston Elementary School and the Barnard School in South Hampton during the day, before coming to the Library in the evening.

This is sure to be a great event, so please come out and learn all there is to know about malaria and its research.

Wednesday, April 10, at 7pm
