

SWIMMING WITH

DOLPHINS

My family and I are in the Gulf of Mexico! Today, we are at a beach picking up litter. You wouldn't believe the things I found on the beach: a gross _____, a yucky _____, and someone's old _____! That's when I look down the beach and see a fin poking out of the water. Could it be a/an _____? A/an _____? No, it's a dolphin! The dolphin uses its tail to splash me with water. I run into the water to _____ with the dolphin. This is so exciting! I watch the dolphin eat it's favorite foods, like fish, shrimp, and of course _____! Then, a whole pod of dolphins shows up! I count _____ dolphins in all. Together, they look like a big group of _____! I love swimming with these amazing and _____ dolphins!
